ELEVATED OUTLOOK

Solstice makes its arrival with the Solstice 27 offering three immersive 27-inch screens alongside the Solstice 49C showcasing a 49-inch C-curve display. Float mounted in clean sophistication, the two form factors display in 4K Ultra High definition (UHD), taking game entertainment to the absolute outer edge of adventure.

STELLAR ELEMENTS

Combined with enhanced spatial audio and bass-reflex technology, the Solstice 27 and Solstice 49C deliver an elevated gaming atmosphere, both immersive and entertaining.

TOTAL SPECTRUM

Stretching from the height of the sound bar and topper to below the button deck, Solstice 27 and Solstice 49C feature first-of-its-kind acrylic lighting elements that interact with in-game features across a dynamic color spectrum. This advanced lighting system delivers real-time visual feedback that reacts to every spin, win, and bonus round, for amplified player enjoyment.

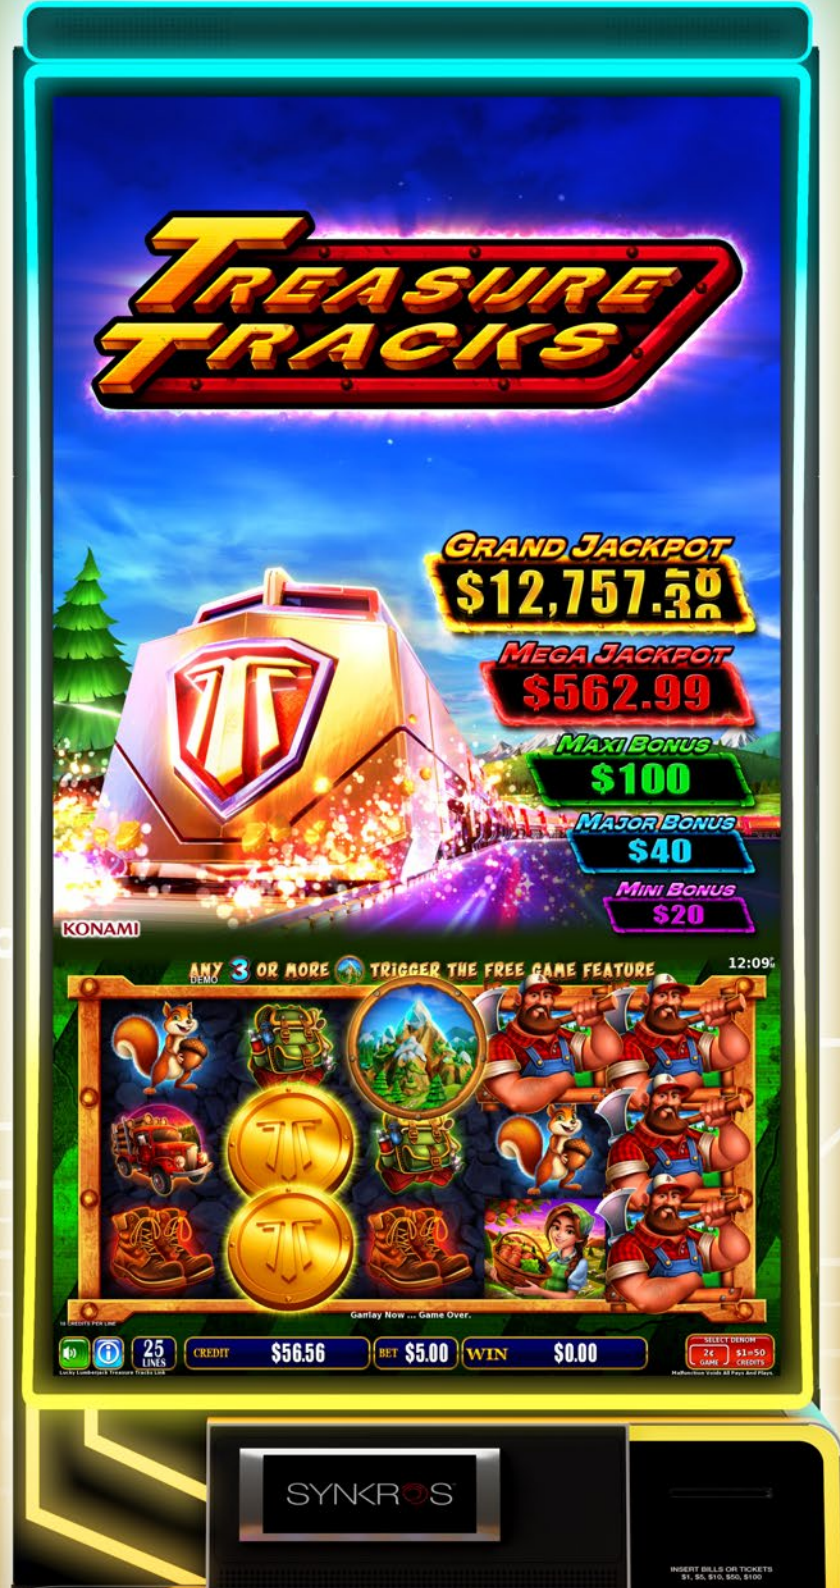

EXPANSIVE REACH

Players relax in comfort and command at the helm of Solstice through its generous button dash and expansive digital button panel. The added area supports player comfort and inclusive play with dual bash buttons.

BEYOND THE SURFACE

At the core of the Solstice hardware is an upgraded core chipset and graphics processing unit, fueling 4x greater computing power than the preceding platform. This inner strength delivers more fluid and responsive gameplay outwardly, for uninterrupted player enjoyment.

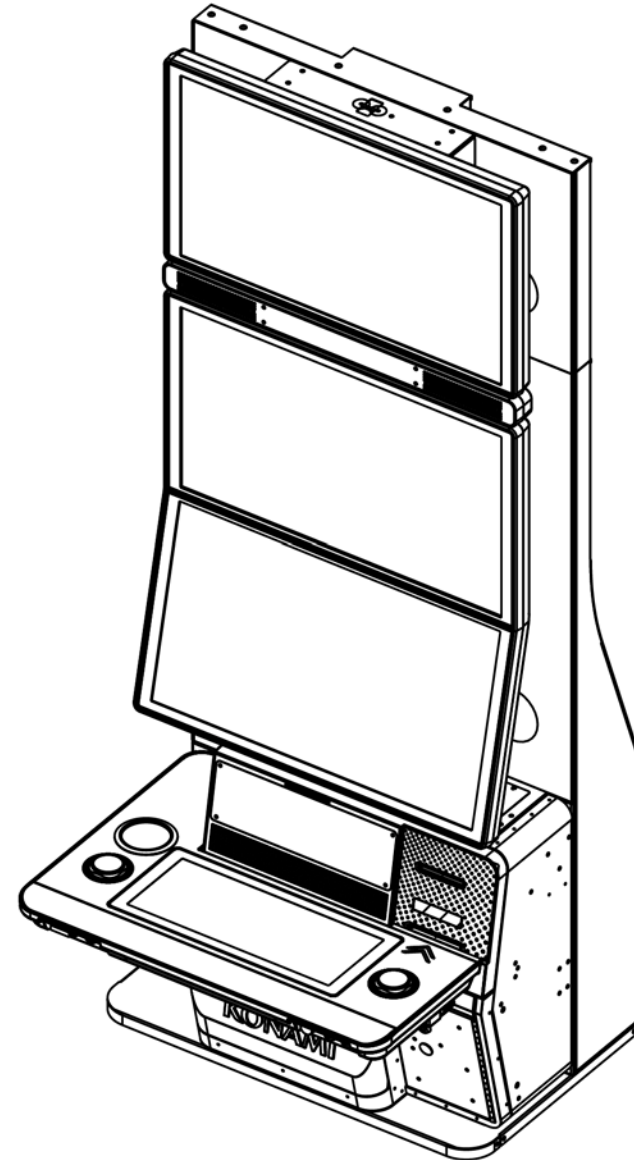

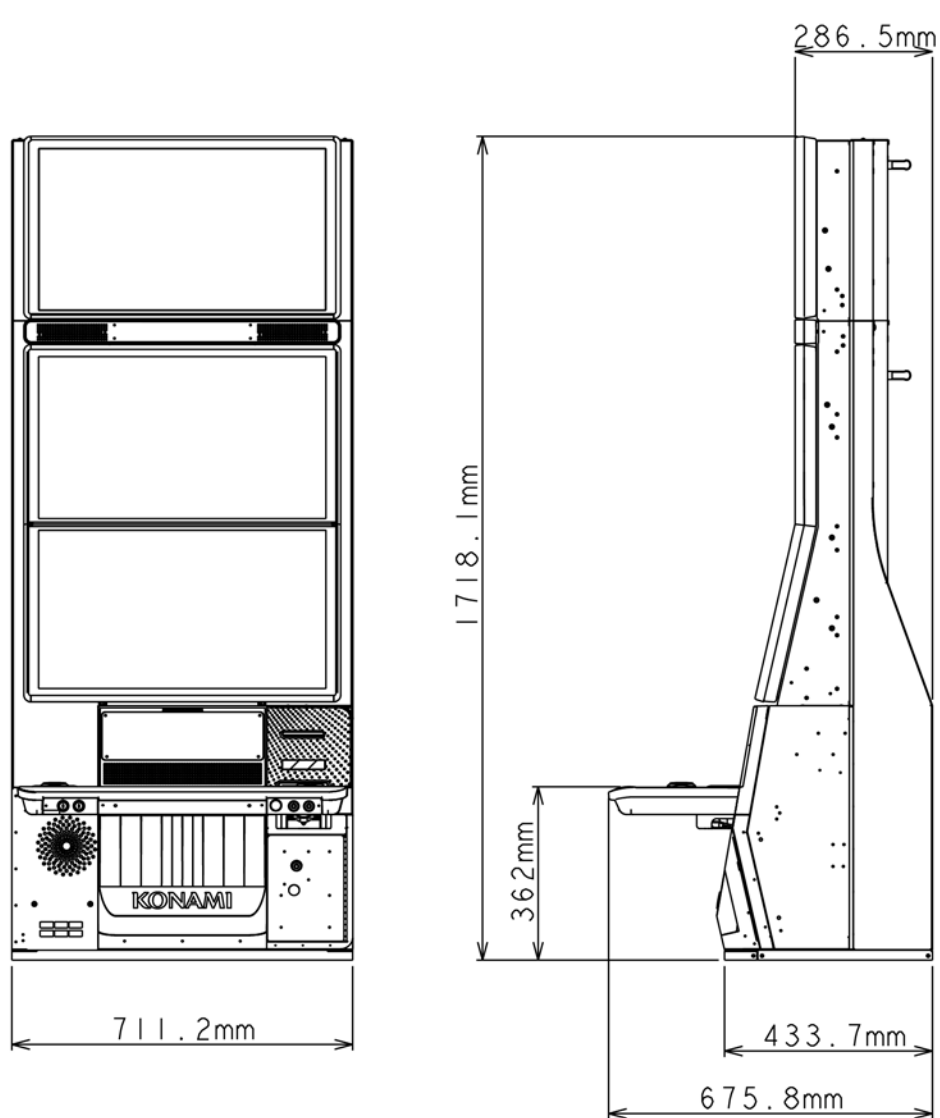

STAR POWER

Konami's Solstice 27 and Solstice 49C are supported by a radiant mix of game titles. Original new creations, and brand-extensions on popular classics celebrate the start of a new season for Konami's global game offering. First light on a vast universe of possibility.
